OFFICES—TELEPHONE BUILDING; 35 PARK AVE. WEST, MANSFIELD, OHIO

JANUARY, 1913

Local Toll Service

To obtain connection with any of the following points, which are reached by THE MANSFIELD TELEPHONE COMPANY, call the Suburban Operator. In placing your calls always give the number of the telephone from which you are calling.

Each rate given below is for a three (3) minutes' conversation or fraction thereof.

THE MANSFIELD TELEPHONE COMPANY,

Local Rate Sheet.

From Mansfield, Ohio, Subscribers and Patrons, to all points in Richland County.

*Perrysville.....	15	05
*Plymouth.....	15	05
*Shelby.....	10	05
Shiloh.....	15	05

*Indicates exchange points.

Long Distance Service

The Mansfield Telephone Company connects with the United States Long Distance Telephone Company, and is prepared to furnish Long Distance Service to all parts of Ohio, Western Pennsylvania, Michigan, Indiana and West Virginia.

RULES AND REGULATIONS FOR LONG DISTANCE SERVICE.

For points outside of Richland County, ask for "Long Distance." When Long Distance Operator answers, give your name and telephone number, and state the place you want and name of person desired.

Long Distance service will be charged to the subscriber from whose instrument the message is sent.

The Company does not undertake or agree to deliver oral or written messages, and will assume no responsibility for such service

Time allowance on all messages is for three (3) minutes, over-time being charged as follows: For each minute or fraction thereof, a charge of one-third ($\frac{1}{3}$) of the original toll will be made.

If a telephone number or place of business is asked for and no particular person is specified, and the connection is put up, the regular toll charge will be made. If a particular person is asked for, there will be no toll charge unless the person called for is reached. If a messenger is sent, messenger service will be charged whether the person is found or not.

Suggestions

Speak close and directly into the transmitter in a clear, low tone. Our apparatus is designed for long distance service, and is extremely sensitive.

To Call Remove receiver from hook. When operator responds give the number of the subscriber desired, repeating each figure of the number separately.

To Disconnect When through talking always place the receiver on the hook, which will signal the Exchange that the conversation is finished. If you desire another number, signal operator by moving hook slowly up and down several times.

Answer your Telephone Promptly Answer promptly when you are called, giving your name or business instead of saying "hello." This is essential to good service.

Party Line Rules Remove the receiver and listen. If the line is in use replace the receiver immediately and wait for a few minutes before trying again.

The length of conversation should in no case exceed five minutes, but you are requested to make it as brief as possible. Some one on your line may be waiting to make an emergency call.

Do not tolerate listening at your telephone when the line is in use.

Do not enter into a controversy with any of the parties on your line. If your conversation is interrupted or you are otherwise interfered with, notify the Company's office by telephone or letter, and the matter will be given immediate attention.

Complaints Subscribers are requested to make complaints of faulty service to the Service Manager; of instrument trouble to the Trouble Clerk, No. 1600. If the diffi-

culty is not promptly remedied, notify the Manager. We appreciate and solocit your just criticism, and ask you to report to us any fault in the service or any lack of civility on the part of our employes that may comes to your attention.

Conversing with the Operators Operators are not permitted to converse over the lines. Every second of their time is taken in answering calls.

New Subscribers New telephones are being put in service daily. For names not appearing in this directory, call Information Operator.

Changed Numbers Due to subscribers moving, their party line numbers are often necessarily changed and complying with the following suggestion will facilitate your calls: If, in making your call, you KNOW the number you have to be the correct one, say to operator "CORRECT NUMBER."

Fire and Police For Fire call 228.
For Police call 192.

Weather Reports For the Weather Forecast of the United States Weather Bureau, call Information Operator, after 10:30 a. m. The forecast is received daily.

Toll Service All Toll Service will be charged to the subscriber from whose telephone the message is sent. For points outside of Mansfield, but within the county, call "Suburban"; outside of county, call "Long Distance." (Except, for Ashland, call Suburban.)

Responsibility for Transmission of Messages This Company will not assume any responsibility for the transmission of verbal or written messages, acting simply as the agent of the person desiring same.
